

GRAYLING™

Sentai Partners with Cognos to Deliver Powerful Business Intelligence Tools

CALGARY, AB - (February 13, 2007) - Grayling Wireless USA, Inc. (Pink Sheets: GRYW) announced today that they have signed an agreement with Cognos to incorporate their Cognos 8 Business Intelligence tools into Sentai's TRAX ERP and PinPoint software environments.

"Cognos 8 Business Intelligence is widely recognized as an industry-leading reporting and analytical tool" said Mario Mannella EVP of Marketing and Business Development at Grayling "and we are excited about delivering that integrated functionality to Sentai's TRAX customers."

"By combining these technologies, users can access a single integrated on-line environment which will include complete access to dashboards, analytics, business-specific alerts, as well as managed, custom and ad-hoc reports. Through our GUI client, every user can access a customized dashboard to show the KPIs they need to manage their day-to-day activities. Everybody in the company from front-line employees to business managers and executives can benefit from up-to-the-minute information which will now be accessible." said Mannella.

Sentai is currently integrating the Cognos tools into TRAX and PinPoint and expect to have them ready for release later this spring.

About GRYW:

Grayling, based in Calgary, Alberta, is an innovator and integrator of emerging technologies. Our goal is to seek out and evaluate growth opportunities, including mergers and acquisitions that add incremental shareholder value, extend the company's market share and add to its technical competencies. Grayling will continue to bring market-ready technologies and services to its markets. For further information, visit www.gryw.com
